

GOLDEN MAHARASHTRA: The Manufacturing Magnet

International Summit – 2012

Date: 2nd March, 2012

Venue: Hotel Taj Mahal Palace, Mumbai

Preamble:

Maharashtra's economy today is one of the most diversified regional economies of the world, comprising vast and significant economic activities ranging from Organic Agriculture – to – High-End, Globally Benchmarked Financial Service Products... However, the core of Maharashtra's economy – its backbone – has always been 'Manufacturing', contributing significantly to GDP, Exports and Industrial Production...

Within Manufacturing, Maharashtra's traditional strengths have been in: Textiles, Chemicals & Pharma, Engineering and Auto and Food-Processing Industry. All the leading MNCs and Indian corporate giants have a significant presence in Maharashtra, for long years...

Within globalization and technology, new avenues are getting opened up in sectors such as: Defence-Production, Nano-Technology, etc...

About the New GoI Policy...

India is poised to become a globally major manufacturing power by 2025 and the recently announced New Manufacturing Policy (NMP) envisages a huge increase in the share of Manufacturing in GDP from the 18 to 25 by 2022. The NMP, a core objective of the NMP is to promote investments in the manufacturing sector and make the country – a hub for both domestic and international markets... Enhancing 'industrial employment' and 'global competitiveness' are the other important objectives of the NMP.

A powerful tool within the NMP is the creation of "National Manufacturing and Investment Zones" (NMIZ) – "...an area specifically delineated for establishment of manufacturing facilities for domestic and export-led production, along with associated services and infrastructure...".

GoM Initiatives...

The GoM is soon formulating / finalizing the New Industrial and Investment Policy, which will induce large (mega) investors as well as SMEs to invest in Manufacturing Sector in Maharashtra...

Opportune Time for Our Conference...

Hence, this is one of the most opportune times for having a Conference dedicated exclusively to the "Performance, Potential and Prospects of Manufacturing Sector in Maharashtra".

While the NMP has laid out in clear terms, the future roadmap for India's Manufacturing Sector, it is expected that Maharashtra will **soon** follow this up with her own, unique policy initiatives

which will further strengthen, strategic and give impetus to the Manufacturing Sector within the State...
